

DYNACYCLE

REFRIGERANT RECYCLING PROGRAM

Step #1 Recover your refrigerant into any DOT approved Recovery Cylinder. If you don't have one, we'll sell you a new lightweight, high pressure composite cylinder.

Step #2 Fill out a Recovered Refrigerant Identification Tag and tie it to your recovery cylinder. Drop off your cylinder at a participating DynaCycle Distributor.

Recovered Refrigerant Identification Tag	
Date: _____	Serial # _____
Wholesaler Name: _____	
Wholesaler City, State Location: _____	
Customer Company: _____	Name: _____
Customer Location: _____	Phone: _____
Refrigerant Type: _____	Cylinder Size (lbs.) _____ Gross Weight (lbs.) _____
Purity Level (%) _____	Net Weight (lbs.) _____
<small>Note: Recovered Refrigerant Identification Tag is required on all tanks submitted to the DynaCycle program. Questions? Please Call (717) 713-2772 DynaCycle DCRAG 9/02</small>	

Step #3 Pickup your empty recovery cylinder in about 2 weeks. You will receive a store credit based on the amount of R22 in your cylinder, the purity level of the recovered R22 and the current price of R22 in the marketplace. We are currently offering \$ _____ per lb. at 97%+ purity and above.

Important! Do not mix refrigerants. Payments are made for R22 only. Payments are based on the purity of the R22 you bring back to a participating distributor. Submitting a recovery cylinder with mixed refrigerants may result in destruction fees. Program terms and conditions subject to change without notice.
